McLean, Virginia
Boston, Massachusetts

Profile

Looking for a place to delve into the mind of matter and explore the edge of science. I like to map things.

Experience

Publisher, Compassionate Technologies; Boston, MA — 2015-Present

Founded a small publishing company, telling the stories at the intersection of cutting edge technology and the human experience. Interviewed researchers and venture capitalists for print publication. Edited articles for publication written by physics, genetics, and food policy students and graduates.

Head of Product Marketing, Getmii — 2015-16

Managed mobile and front-end engineering team in Bangkok, Thailand; met regularly with marketing team in Boston, MA and back-end engineering team leads in Poland. Ensured on time delivery of mobile app in coordination with nationwide promotional events. Designed and executed user research studies.

Led workshops on wellness for AISEC students and user experience design for Harvard's Entrepreneurship Bootcamp. Organized blood drive in coordination with the Red Cross in Kathmandu, Nepal.

Engineer and Designer, TribeSay — 2013-15

Worked as the front-end engineer and designer for a news and events startup.

Education

University of Virginia, Charlottesville, VA

Civil and Environmental Engineering, 2009-13 (3.6/4.0)
High Distinction, Business Minor

Beijing Language and Culture University, Beijing, China

Certificate of Intermediate Chinese, 2008-09

Thomas Jefferson High School for Science and Technology, Alexandria, VA

Neuroscience Research Lab, 2008

Skills

ArcGIS, Javascript, HTML, CSS, jQuery, MeteorJS, PHP, MongoDB, Chinese
